

# Broccoli

## Packed with flavour

### Montop

#### Type

A medium early hybrid for production in summer and autumn. Montop is a vigorous hybrid for fresh market and processing.

The plants are very uniform, have a good vigour and produce dark green, dome-shaped heads of high quality, ideal for punnets. Montop can be sown in spring and early summer for harvest in late summer and autumn. Recommended plant density is 3 - 4 plants/m<sup>2</sup>.

#### Features/benefits

- Vigorous, healthy plant.
- Very good shape of head with good colour. Strong against hollow core and cat-eye.
- Suited for fresh market, fresh-cut and processing.

<b>Ecology</b>	Open field
<b>Variety Usage</b>	Fresh/processing
<b>Earliness</b>	Medium early
<b>Maturity</b>	60 days
<b>Plant Type</b>	Medium, vigorous, with good head elevation
<b>Head Size</b>	Large dome shape with fine beads
<b>Average head weight</b>	400g +
<b>Field Standing</b>	Moderate
<b>Plant Vigour</b>	High
<b>Culture</b>	Sow in spring and early summer for harvest in summer and autumn.
